SUMMARY

Dynamic and highly motivated Computer Science and Engineering graduate seeking an exciting and challenging role in a reputable organization. Eager to innovate, contribute, and grow with cutting-edge technology to drive meaningful impact and success. Possesses a solid foundation in software development, along with experience in creating intuitive and engaging user interfaces to enhance user experience while achieving business objectives. Enthusiastic about data analysis, with skills in Python and SQL, and a passion for transforming data into actionable insights.

EDUCATION

Bachelor of Technology in Computer Science and Engineering   **Nov 2020 - July 2024**
Amal Jyothi College of Engineering
- Distinguished Member of IEEE Computer Society
- Relevant Coursework: Flutter, Cloud Computing(Oracle)
- CGPA : 7.35

PROFESSIONAL EXPERIENCE

Intern | Software Developer | Topaz, Dubai   **Oct 2024 - Present**
- I'm currently interning as a Software Developer at Topaz, where I focus on developing user-friendly UI and UX designs and building Python-based projects for the website, enhancing the overall user experience and functionality.

Intern | Data Science | Luminar Technolab, Kochi   **July 2024 - Oct 2024**
- I completed an internship as a Data Science at Luminar Technolab, where I focused on data analysis, machine learning, and statistical modeling. During this time, I also expanded my knowledge in ML, AI, Power BI, Python, and SQL to turn data into meaningful insights.

Internship | Web Development | Keltron.Ltd, Kochi   **May 2023**
- Completed a one-week web development internship using HTML, CSS, and Django. Explored various aspects of web development for mobile and web applications, gaining hands-on experience with dynamic websites and the latest technologies.

PROJECTS

CalmGuard | Live Stress Monitoring Website   **Aug 2023 - Apr 2024**
Amal Jyothi College of Engineering
- CalmGuard uses AI and computer vision to detect real-time stress levels and monitor eye strain via webcam, offering actionable insights for stress management and eye health.

Agape | Canteen Food Ordering App   **Jan 2023 - Jun 2023**
Amal Jyothi College of Engineering
- Canteen Food Ordering App With Token Generation.

SKILLS

- Prototyping Tools
- HTML-CSS
- Exceptional communication
- Figma
- Project Management
- Python
- Responsive Design
